in the State of Haryana.

Memo No. 1915 /S.T-6,  
dated Chandigarh, the 3.7.2006.

**Subject: Allotment of new TIN number with transfer of place of  
business from the one district to another.**

Memo

You are aware that TIN is an identification code which is assigned to each registered dealer under VAT /CST /LADT. Though 11-digit TIN contains two digits relating to the districts in which the dealer has been registered yet TIN has been designed to identify the dealer from the date of his registration to the date of cancellation i.e. throughout the course of his commercial existence. With TINXSYS application, TIN has now assumed interstate ramification and it has, therefore, become necessary to maintain this code throughout the commercial life of a dealer/business enterprises, so that there is no confusion relating to his identification. At present, TIN is changed in some of the districts at the time of change of place of business from one district to the other. Change of place of business by a dealer from one district to another, however, should not necessitate change in his TIN, as his identity codified as TIN has to be maintained.

It has, therefore, been decided that in order to maintain unique identity of a dealer through TIN and to keep it immutable his TIN shall not be changed with change of place of his business from one place to another.

These instructions may be brought to the notice of all the officers working under you.
